

**Overlay Shares Enhanced Equity Fund (OVEEX)
Overlay Shares Hedged Equity Fund (OVHEX)
(each, a “Fund” and together, the “Funds”)
each, a series of Listed Funds Trust (the “Trust”)**

**Supplement dated August 28, 2026
to the Prospectus dated July 9, 2026**

In connection with making the Funds’ shares available through certain intermediary platforms, the penultimate paragraph of the “Purchasing Shares Through a Financial Intermediary” is revised to reflect that Authorized Intermediaries may designate other intermediaries to receive purchase and redemption orders and that the Fund will be deemed to have received orders accepted by any such intermediary. Therefore, effective immediately, the disclosure under “Purchasing Shares Through a Financial Intermediary” is hereby deleted in its entirety and replaced with the disclosure set forth below.

Purchasing Shares Through a Financial Intermediary. Investors may be charged a fee if they effect transactions through a financial intermediary. If you are purchasing shares through a financial intermediary, you must follow the procedures established by your financial intermediary. Your financial intermediary is responsible for sending your purchase order and wiring payment to the Transfer Agent. Your financial intermediary holds the shares in your name and receives all confirmations of purchases and sales. Financial intermediaries placing orders for themselves or on behalf of their customers should call the Funds toll free at 855-522-8565, or follow the instructions listed in the sections above entitled “Investing by Telephone,” “Purchase by Mail” and “Purchase by Wire.”

If you place an order for a Fund’s shares through a financial intermediary that is not an Authorized Intermediary in accordance with such financial intermediary’s procedures, and such financial intermediary then transmits your order to the Transfer Agent in accordance with the Transfer Agent’s instructions, your purchase will be processed at the applicable price next calculated after the Transfer Agent receives your order. The financial intermediary must promise to send to the Transfer Agent immediately available funds in the amount of the purchase price in accordance with the Transfer Agent’s procedures. If payment is not received within the time specified, the Transfer Agent may rescind the transaction and the financial intermediary will be held liable for any resulting fees or losses.

In the case of Authorized Intermediaries that have made satisfactory payment or redemption arrangements with a Fund, orders will be processed at the applicable price next calculated after receipt in good order by the Authorized Intermediary (or its authorized designee), consistent with applicable laws and regulations. An order is deemed to be received in good order when a Fund or an Authorized Intermediary (or its authorized designee) accepts the order. Authorized Intermediaries may be authorized to designate other intermediaries, each an authorized designee, to receive purchase and redemption requests on behalf of the Funds. Orders will be priced at the Fund’s NAV next computed after they are received in good order by an Authorized Intermediary (or its authorized designee).

For more information about your financial intermediary’s rules and procedures, whether your financial intermediary is an Authorized Intermediary, and whether your financial intermediary imposes cut-off times for the receipt of orders that are earlier than the cut-off times established by the Funds, you should contact your financial intermediary directly.

Please retain this Supplement with your Prospectus for future reference.

OVERLAY SHARES ENHANCED EQUITY FUND

Investment Objective

The Overlay Shares Enhanced Equity Fund (the “Enhanced Equity Fund” or the “Fund”) seeks capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund (“Shares”). **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below.**

Shareholder Fees (<i>fees paid directly from your investment</i>)	None
Annual Fund Operating Expenses (<i>expenses that you pay each year as a percentage of the value of your investment</i>)	
Management Fees	1.49%
Distribution and/or Service (12b-1) Fees	0.00%
Administrative Servicing Fee	0.75%
Other Expenses ⁽¹⁾	1.28%
Acquired Fund Fees and Expenses ^(1,2)	0.03%
Total Annual Fund Operating Expenses (before expense limitation)	3.55%
Fee Waiver/Reimbursement or Recoupment ⁽³⁾	-1.06%
Total Annual Fund Operating Expenses	2.49%

1. Estimated for the Fund’s initial fiscal year.
2. The Total Annual Fund Operating Expenses will not correlate to the expense ratio in the Fund’s Financial Highlights and financial statements because the Financial Highlights and financial statements include only the direct operating expenses incurred by the Fund and exclude Acquired Fund Fees and Expenses, which are the indirect costs of investing in other investment companies.
3. Liquid Strategies, LLC (the “Adviser”) has contractually agreed to waive its management fee and pay Fund expenses to ensure that the Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses, leverage/borrowing interest, interest expense, dividends paid on short sales, taxes, brokerage commissions, extraordinary expenses, expenses incurred in connection with any merger or reorganization, and any distribution (12b-1) fees, shareholder servicing plan fees, administrative servicing fees, front-end or contingent deferred loads (collectively, “Excluded Expenses”)) do not exceed 2.49% of the average net assets if the Fund. Fees waived and expenses paid by the Adviser may be recouped by the Adviser for up to three years from the date which such fee waiver and expense payment was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the fee waiver and expense payment occurred and the expense limit in effect at the time of recoupment. This agreement will continue in effect until at least July 9, 2027, unless sooner terminated. Thereafter, the agreement will continue in effect for additional one-year periods as agreed upon by Listed Funds Trust (the “Trust”) and the Adviser. The agreement may be terminated at any time upon 60 days’ written notice by the Trust’s Board of Trustees (the “Board”) or the Adviser, with the consent of the Board, which consent shall not be unreasonable withheld.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The Example does not take into account brokerage commissions that you may pay on your purchases and sales of Shares. The Example reflects the management fee waiver described in the table above. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year: \$252

3 Years: \$991

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Shares are held in a taxable account. These costs, which are not reflected in the Total Annual Fund Operating

Expenses or in the Example, affect the Fund's performance. Because the Fund is newly organized, portfolio turnover information is not yet available.

Principal Investment Strategies

The Fund seeks to achieve its objective by (i) investing in one or more other exchange-traded funds ("ETFs") that seek to obtain exposure to the performance of U.S. large-cap equity securities or directly in the securities held by such ETFs and (ii) purchasing listed call options to obtain additional upside participation in U.S. large-cap equities. Under normal circumstances, at least 80% of the Fund's net assets, plus borrowings for investment purposes, will be invested, directly or indirectly, in equity securities. For purposes of this policy, the Fund defines "equity securities" to mean common and preferred stocks, rights, warrants, depositary receipts, equity interests in real estate investment trusts ("REITs"), and master limited partnerships ("MLPs").

The notional value (strike price times the value of the shares) of the call options may be up to 100% of the Fund's net assets. A call option gives the purchaser of the option, in exchange for the premium paid, the right to buy the underlying asset at a specified price ("strike price") at a specified date ("expiration date"). In contrast, the seller of a call option, in exchange for the premium received, is obligated to sell the underlying asset at the strike price on the expiration date. In the event the underlying asset declines in value, the value of a call option will generally decrease. In the event the underlying asset appreciates in value, the value of a call option will generally increase. The options purchased by the Fund are typically expected to have an expiration date of approximately 3-5 weeks from their purchase date. The strike price of the purchased calls will typically be equal to the value of the reference index (described in greater detail below) at the time such options are purchased.

The ETF(s) purchased will be based on a combination of cost, liquidity and tracking error versus the benchmark index the ETF seeks to track. The selection process for purchasing the call options is generally rules-based where the expiration date and strike price are determined based on the index level and the expiration date that is three to five weeks out. The options will be index options that track the same index tracked by the underlying ETF. It is generally expected that the purchased calls would be held until maturity, but the Adviser reserves the right to use judgment to determine if such positions should be closed or rolled early.

Principal Investment Risks

The principal risks of investing in the Fund are summarized below. The principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with the risks of other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, regardless of the order in which it appears. As with any investment, there is a risk that you could lose all or a portion of your investment in the Fund. Some or all of these risks may adversely affect the Fund's net asset value ("NAV"), trading price, yield, total return and/or ability to meet its investment objective. The following risks could affect the value of your investment in the Fund:

- **Cybersecurity Risk.** Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets or proprietary information, or cause the Fund, the Adviser, and/or other service providers (including custodians and financial intermediaries) to suffer data breaches or data corruption. Additionally, cybersecurity failures or breaches of the electronic systems of the Fund, the Adviser, the Fund's other service providers, market makers, or the issuers of securities in which the Fund invests have the ability to disrupt and negatively affect the Fund's business operations, including the ability to purchase and sell Shares, potentially resulting in financial losses to the Fund and its shareholders.
- **Derivatives Securities Risk.** Derivatives, such as the options in which the Fund invests, can be volatile and involve various types and degrees of risks, depending upon the characteristics of a particular derivative. Derivatives may entail investment exposures that are greater than their cost would suggest, meaning that a small investment in a derivative could have a substantial impact on the performance of the Fund. The Fund could experience a loss if its derivatives do not perform as anticipated, or are not correlated with the performance of their underlying asset or if the Fund is unable to purchase or liquidate a position because of an illiquid secondary market. The market for many derivatives is, or suddenly can become, illiquid. Changes in liquidity may result in significant, rapid, and unpredictable changes in the prices for derivatives.
- **Equity Securities Risk.** The equity securities held in the Fund's portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect securities markets generally or factors affecting specific issuers, industries, sectors or companies in which the Fund invests. Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Preferred stocks are subject to the risk that the dividend on the stock may be changed or omitted by the issuer, and that participation in the growth of an issuer may be limited.

- **Exchange-Traded Funds Risk.** The Fund is subject to substantially the same risks as those associated with the direct ownership of the securities represented by an underlying ETF in which it invests. In addition, the shares of an underlying ETF may trade at a premium or discount to their intrinsic value (*i.e.*, the market value may differ from the net asset value (“NAV”) of an ETF’s shares) for a number of reasons. For example, supply and demand for shares of an underlying ETF or market disruptions may cause the market price of the underlying ETF to deviate from the value of the underlying ETF’s investments, which may be exacerbated in less liquid markets.
- **Large-Capitalization Investing Risk.** The securities of large-capitalization companies may be relatively mature compared to smaller companies and, therefore, subject to slower growth during times of economic expansion. Large-capitalization companies also may be unable to respond quickly to new competitive challenges, such as changes in technology and consumer tastes.
- **Leveraging Risk.** When a Fund purchases or sells an instrument or enters into a transaction without investing an amount equal to the full economic exposure of the instrument or transaction, it creates leverage, which can result in the Fund losing more than it originally invested. As a result, these investments may magnify losses to the Fund, and even a small market movement may result in significant losses to the Fund. Leverage may also cause the Fund to be more volatile, because it may exaggerate the effect of any increase or decrease in the value of the Fund’s portfolio securities.
- **Management Risk.** The Fund is actively managed and may not meet its investment objective based on the Adviser’s success or failure to implement investment strategies for the Fund. In addition, the Adviser’s evaluations and assumptions regarding investments, interest rates, inflation, and other factors may not successfully achieve the Fund’s investment objective given actual market conditions.
- **Market Risk.** The trading prices of securities and other instruments fluctuate in response to a variety of factors. These factors include events impacting the entire market or specific market segments, such as political, market and economic developments, as well as events that impact specific issuers. The Fund’s NAV, like security and commodity prices generally, may fluctuate significantly in response to these and other factors. As a result, an investor could lose money over short or long periods of time. In addition, government actions or interventions (including, but not limited, to the threat or imposition of tariffs, trade restrictions, currency restrictions or similar actions) as well as developments related to economic, political (including geopolitical), social, public health, market, extreme weather, natural or man-made disasters, or other conditions or events have in the past and may in the future result in volatility in financial markets and reduced liquidity in equity, credit, and/or debt markets, which could adversely impact the Fund and its investments and their value and performance. These developments as well as other events could result in further market volatility and negatively affect financial asset prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets.
- **MLP Risk.** MLP investment returns are enhanced during periods of declining or low interest rates and tend to be negatively influenced when interest rates are rising. In addition, most MLPs are leveraged investments and are subject to interest rate risk as higher interest rates generally result in increased costs associated with MLPs’ floating rate debt. As such, a significant upward swing in interest rates would also drive interest expense higher. Furthermore, most MLPs grow by acquisitions partly financed by debt, and higher interest rates could make it more difficult to make acquisitions. MLP investments also entail many of the general tax risks of investing in a partnership. Limited partners in an MLP typically have limited control and limited rights to vote on matters affecting the partnership. Additionally, there is always the risk that an MLP will fail to qualify for favorable tax treatment.
- **New Fund Risk.** The Fund is a recently organized investment company with no operating history. As a result, prospective investors have no track record or history on which to base their investment decision.
- **Non-Diversification Risk.** Because the Fund is “non-diversified,” it may invest a greater percentage of its assets in the securities of a single issuer or a lesser number of issuers than if it was a diversified fund. As a result, the Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a lesser number of issuers than a fund that invests more widely. This may increase the Fund’s volatility and cause the performance of a relatively small number of issuers to have a greater impact on the Fund’s performance.
- **Options Risk.** Purchasing options is a speculative activity and entails greater than ordinary investment risks. The Fund’s use of call options can lead to losses because of adverse movements in the price or value of the underlying asset, which may be magnified by certain features of the options. Purchasing of call options involves the payment of premiums, which may adversely affect the Fund’s performance. Purchasing a call option gives the purchaser of the option the right to buy a specified quantity of an underlying asset at a fixed exercise price

over a defined period of time. Purchased call options may expire worthless resulting in the Fund's loss of the premium it paid for the option. The value of an option may be adversely affected if the market for the option becomes less liquid or smaller, and will be affected by changes in the value or yield of the option's underlying asset, an increase in interest rates, a change in the actual or perceived volatility of the stock market or the underlying asset and the remaining time to expiration. Additionally, the value of an option does not increase or decrease at the same rate as the underlying asset. The Fund's use of options may reduce the Fund's ability to profit from increases in the value of the underlying asset. If the price of the underlying asset of an option is below the strike price of a purchased call option, the value of the option, and consequently of the Fund, may decline significantly more than if the Fund invested directly in the underlying asset instead of using options. The Fund could lose a significant amount or nearly all of its value if the price of an underlying asset changes significantly enough.

- **REIT Risk.** Investment in real estate companies, including REITs, exposes the Fund to the risks of owning real estate directly. Real estate is highly sensitive to general and local economic conditions and developments. The U.S. real estate market may experience and has, in the past, experienced a decline in value, with certain regions experiencing significant losses in property values. Many real estate companies, including REITs, utilize leverage (and some may be highly leveraged), which increases investment risk and the risk normally associated with debt financing, and could potentially increase the Fund's volatility and losses. Exposure to such real estate may adversely affect Fund performance. Further, REITs are dependent upon specialized management skills, and their investments may be concentrated in relatively few properties, or in a small geographic area or a single property type. REITs also are subject to heavy cash flow dependency and, as a result, are particularly reliant on the proper functioning of capital markets. A variety of economic and other factors may adversely affect a lessee's ability to meet its obligations to a REIT. In the event of a default by a lessee, the REIT may experience delays in enforcing its rights as a lessor and may incur substantial costs associated in protecting its investments. In addition, a REIT could fail to qualify for favorable regulatory treatment.
- **Tax Risk.** Options entered into by the Fund may also be subject to the federal tax rules applicable to straddles under the Internal Revenue Code of 1986, as amended (the "Code"). If positions held by the Fund were treated as "straddles" for federal income tax purposes, or the Fund's risk of loss with respect to a position was otherwise diminished as set forth in Treasury regulations, dividends on stocks that are a part of such positions would not constitute qualified dividend income subject to such favorable income tax treatment in the hands of non-corporate shareholders or eligible for the dividends received deduction for corporate shareholders. In addition, generally, straddles are subject to certain rules that may affect the amount, character, and timing of the Fund's recognition of gains and losses with respect to straddle positions.

Performance

The Fund is new and therefore does not have a performance history for a full calendar year. In the future, performance information for the Fund will be presented in this section. Updated performance information is available on the Fund's website at lsfunds.com.

Portfolio Management

Adviser	Liquid Strategies, LLC
Portfolio Managers	Adam Stewart, CFA and Shawn Gibson have been portfolio managers of the Fund since its inception in July 2026.

Purchase and Sale of Fund Shares

You may purchase, redeem or exchange shares by mail (Liquid Strategies Funds, c/o U.S. Bank Global Fund Services, P.O. Box 219252, Kansas City, MO 64121-9252 (for regular mail) or 801 Pennsylvania Ave, Suite 219252, Kansas City, MO 64105-1307 (for overnight or express mail)), by wire or by telephone at 855-522-8565. Investors who wish to purchase, redeem or exchange Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial amount of investment in the Fund is \$1,000. Subsequent investments may be made with a minimum investment amount of \$100.

Tax Information

The Fund's dividends and distributions may be subject to Federal income taxes, and will be taxed as ordinary income or capital gains, unless you are a tax-exempt organization or are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. You may be taxed later upon withdrawal of monies from such tax-deferred or other tax-advantaged arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank or financial advisor), the Fund and/or its Adviser may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over other investments. Ask your salesperson or visit your financial intermediary's website for more information.

OVERLAY SHARES HEDGED EQUITY FUND

Investment Objective

The Overlay Shares Hedged Equity Fund (the “Hedged Equity Fund” or the “Fund”) seeks capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund (“Shares”). **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below.**

Shareholder Fees (<i>fees paid directly from your investment</i>)	None
Annual Fund Operating Expenses (<i>expenses that you pay each year as a percentage of the value of your investment</i>)	
Management Fees	1.49%
Distribution and/or Service (12b-1) Fees	0.00%
Administrative Servicing Fee	0.75%
Other Expenses ⁽¹⁾	1.28%
Acquired Fund Fees and Expenses ^(1,2)	0.03%
Total Annual Fund Operating Expenses (before expense limitation)	3.55%
Fee Waiver/Reimbursement or Recoupment ⁽³⁾	-1.06%
Total Annual Fund Operating Expenses	2.49%

1. Estimated for the Fund’s initial fiscal year.
2. The Total Annual Fund Operating Expenses will not correlate to the expense ratio in the Fund’s Financial Highlights and financial statements because the Financial Highlights and financial statements include only the direct operating expenses incurred by the Fund and exclude Acquired Fund Fees and Expenses, which are the indirect costs of investing in other investment companies.
3. Liquid Strategies, LLC (the “Adviser”) has contractually agreed to waive its management fee and pay Fund expenses to ensure that the Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses, leverage/borrowing interest, interest expense, dividends paid on short sales, taxes, brokerage commissions, extraordinary expenses, expenses incurred in connection with any merger or reorganization, and any distribution (12b-1) fees, shareholder servicing plan fees, administrative servicing fees, front-end or contingent deferred loads (collectively, “Excluded Expenses”)) do not exceed 2.49% of the average net assets if the Fund. Fees waived and expenses paid by the Adviser may be recouped by the Adviser for up to three years from the date which such fee waiver and expense payment was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the fee waiver and expense payment occurred and the expense limit in effect at the time of recoupment. This agreement will continue in effect until at least July 9, 2027, unless sooner terminated. Thereafter, the agreement will continue in effect for additional one-year periods as agreed upon by Listed Funds Trust (the “Trust”) and the Adviser. The agreement may be terminated at any time upon 60 days’ written notice by the Trust’s Board of Trustees (the “Board”) or the Adviser, with the consent of the Board, which consent shall not be unreasonable withheld.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The Example does not take into account brokerage commissions that you may pay on your purchases and sales of Shares. The Example reflects the management fee waiver described in the table above. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year: \$252

3 Years: \$991

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Shares are held in a taxable account. These costs, which are not reflected in the Total Annual Fund Operating

Expenses or in the Example, affect the Fund's performance. Because the Fund is newly organized, portfolio turnover information is not yet available.

Principal Investment Strategies

The Fund seeks to achieve its objective by (i) investing in one or more other exchange-traded funds ("ETFs") that seek to obtain exposure to the performance of U.S. large-cap equity securities or directly in the securities held by such ETFs, and (ii) purchasing long-term out-of-the-money put options (*i.e.*, put options with a strike price below the current price of the reference asset) to seek to hedge against significant declines in U.S. large-cap equities. Under normal circumstances, at least 80% of the Fund's net assets, plus borrowings for investment purposes, will be invested, directly or indirectly through ETFs, in equity securities. For purposes of this policy, the Fund defines "equity securities" to mean common and preferred stocks, rights, warrants, depositary receipts, equity interests in real estate investment trusts ("REITs"), and master limited partnerships ("MLPs").

In order to mitigate the risks of significant declines in U.S. large-cap equities, the Fund will purchase a series of long-term out-of-the-money put options on the reference asset (typically an index of large-cap securities) with expiration terms ranging from 6 to 18 months. The Fund will typically purchase large put options with a notional value (strike price times the value of the shares) generally approximating the Fund's net asset value.

The Fund focuses primarily on equity index options which offer both European settlement (*i.e.*, options can only be exercised at their expiration date) and cash settlement (*i.e.*, options carry an obligation by their seller to pay the difference between their strike price and their settlement value instead of allowing the seller to take delivery of securities).

The Fund's purchase of put options may result in the generation of positive returns for the Fund; however, the loss potential if the strategy is not effective may be greater than the profit potential. **The Fund may lose significantly more than the premiums it receives in highly volatile market conditions.**

The Adviser employs a disciplined portfolio construction process that relies on guidelines to govern capital allocations based on a quantitative methodology designed by the Adviser to measure the perceived risk of the broad U.S. equity market. In making this determination, the Adviser considers various factors including but not limited to the overall volatility (rate of change) in the markets. The Adviser bases allocation decisions on a combination of quantitative risk metrics and a qualitative assessment of potential risk/reward scenarios, with the ultimate goals of mitigating the effects of volatility in the Fund's portfolio and maintaining adequate portfolio diversification while seeking to achieve the Fund's targeted return. The Adviser evaluates the metrics associated with the valuation of options, including volatility, time to expiration and the relationship of the exercise price to the prevailing market price of the reference asset. There can be no guarantee that the Adviser will be successful in implementing the Fund's strategy. During market conditions in which market volatility rises, the price of options could rise, which could affect the Fund's performance and ability to achieve its targeted return.

Principal Investment Risks

The principal risks of investing in the Fund are summarized below. The principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with the risks of other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, regardless of the order in which it appears. As with any investment, there is a risk that you could lose all or a portion of your investment in the Fund. Some or all of these risks may adversely affect the Fund's net asset value ("NAV"), trading price, yield, total return and/or ability to meet its investment objective. The following risks could affect the value of your investment in the Fund:

- **Cybersecurity Risk.** Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets or proprietary information, or cause the Fund, the Adviser, and/or other service providers (including custodians and financial intermediaries) to suffer data breaches or data corruption. Additionally, cybersecurity failures or breaches of the electronic systems of the Fund, the Adviser, the Fund's other service providers, market makers, or the issuers of securities in which the Fund invests have the ability to disrupt and negatively affect the Fund's business operations, including the ability to purchase and sell Shares, potentially resulting in financial losses to the Fund and its shareholders.
- **Derivatives Securities Risk.** Derivatives, such as the options in which the Fund invests, can be volatile and involve various types and degrees of risks, depending upon the characteristics of a particular derivative. Derivatives may entail investment exposures that are greater than their cost would suggest, meaning that a small investment in a derivative could have a substantial impact on the performance of the Fund. The Fund could experience a loss if its derivatives do not perform as anticipated, or are not correlated with the performance of their underlying asset or if the Fund is unable to purchase or liquidate a position because of an illiquid secondary market. The market for many derivatives is, or suddenly can become, illiquid. Changes in liquidity may result in significant, rapid, and unpredictable changes in the prices for derivatives.

- **Equity Securities Risk.** The equity securities held in the Fund's portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect securities markets generally or factors affecting specific issuers, industries, sectors or companies in which the Fund invests. Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Preferred stocks are subject to the risk that the dividend on the stock may be changed or omitted by the issuer, and that participation in the growth of an issuer may be limited.
- **Exchange-Traded Funds Risk.** The Fund is subject to substantially the same risks as those associated with the direct ownership of the securities represented by an underlying ETF in which it invests. In addition, the shares of an underlying ETF may trade at a premium or discount to their intrinsic value (*i.e.*, the market value may differ from the net asset value ("NAV") of an ETF's shares) for a number of reasons. For example, supply and demand for shares of an underlying ETF or market disruptions may cause the market price of the underlying ETF to deviate from the value of the underlying ETF's investments, which may be exacerbated in less liquid markets.
- **Large-Capitalization Investing Risk.** The securities of large-capitalization companies may be relatively mature compared to smaller companies and, therefore, subject to slower growth during times of economic expansion. Large-capitalization companies also may be unable to respond quickly to new competitive challenges, such as changes in technology and consumer tastes.
- **Leveraging Risk.** When a Fund purchases or sells an instrument or enters into a transaction without investing an amount equal to the full economic exposure of the instrument or transaction, it creates leverage, which can result in the Fund losing more than it originally invested. As a result, these investments may magnify losses to the Fund, and even a small market movement may result in significant losses to the Fund. Leverage may also cause the Fund to be more volatile, because it may exaggerate the effect of any increase or decrease in the value of the Fund's portfolio securities.
- **Management Risk.** The Fund is actively managed and may not meet its investment objective based on the Adviser's success or failure to implement investment strategies for the Fund. In addition, the Adviser's evaluations and assumptions regarding investments, interest rates, inflation, and other factors may not successfully achieve the Fund's investment objective given actual market conditions.
- **Market Risk.** The trading prices of securities and other instruments fluctuate in response to a variety of factors. These factors include events impacting the entire market or specific market segments, such as political, market and economic developments, as well as events that impact specific issuers. The Fund's NAV, like security and commodity prices generally, may fluctuate significantly in response to these and other factors. As a result, an investor could lose money over short or long periods of time. In addition, government actions or interventions (including, but not limited, to the threat or imposition of tariffs, trade restrictions, currency restrictions or similar actions) as well as developments related to economic, political (including geopolitical), social, public health, market, extreme weather, natural or man-made disasters, or other conditions or events have in the past and may in the future result in volatility in financial markets and reduced liquidity in equity, credit, and/or debt markets, which could adversely impact the Fund and its investments and their value and performance. These developments as well as other events could result in further market volatility and negatively affect financial asset prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets.
- **MLP Risk.** MLP investment returns are enhanced during periods of declining or low interest rates and tend to be negatively influenced when interest rates are rising. In addition, most MLPs are leveraged investments and are subject to interest rate risk as higher interest rates generally result in increased costs associated with MLPs' floating rate debt. As such, a significant upward swing in interest rates would also drive interest expense higher. Furthermore, most MLPs grow by acquisitions partly financed by debt, and higher interest rates could make it more difficult to make acquisitions. MLP investments also entail many of the general tax risks of investing in a partnership. Limited partners in an MLP typically have limited control and limited rights to vote on matters affecting the partnership. Additionally, there is always the risk that an MLP will fail to qualify for favorable tax treatment.
- **New Fund Risk.** The Fund is a recently organized investment company with no operating history. As a result, prospective investors have no track record or history on which to base their investment decision.
- **Non-Diversification Risk.** Because the Fund is "non-diversified," it may invest a greater percentage of its assets in the securities of a single issuer or a lesser number of issuers than if it was a diversified fund. As a result, the Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a lesser number of issuers than a fund that invests more widely. This may increase the Fund's volatility

and cause the performance of a relatively small number of issuers to have a greater impact on the Fund's performance.

- **Options Risk.** Purchasing options is a speculative activity and entails greater than ordinary investment risks. The Fund's use of put options can lead to losses because of adverse movements in the price or value of the underlying asset, which may be magnified by certain features of the options. When selling a put option, the Fund will receive a premium; however, this premium may not be enough to offset a loss incurred by the Fund if the price of the underlying asset is below the strike price by an amount equal to or greater than the premium. Purchasing of put options involves the payment of premiums, which may adversely affect the Fund's performance. Purchasing a put option gives the purchaser of the option the right to sell a specified quantity of an underlying asset at a fixed exercise price over a defined period of time. Purchased put options may expire worthless resulting in the Fund's loss of the premium it paid for the option. The value of an option may be adversely affected if the market for the option becomes less liquid or smaller, and will be affected by changes in the value or yield of the option's underlying asset, an increase in interest rates, a change in the actual or perceived volatility of the stock market or the underlying asset and the remaining time to expiration. Additionally, the value of an option does not increase or decrease at the same rate as the underlying asset. If the price of the underlying asset of an option is above the strike price of a written put option, the value of the option, and consequently of the Fund, may decline significantly more than if the Fund invested directly in the underlying asset instead of using options. The Fund could lose a significant amount or nearly all of its value if the price of an underlying asset changes significantly enough.
- **REIT Risk.** Investment in real estate companies, including REITs, exposes the Fund to the risks of owning real estate directly. Real estate is highly sensitive to general and local economic conditions and developments. The U.S. real estate market may experience and has, in the past, experienced a decline in value, with certain regions experiencing significant losses in property values. Many real estate companies, including REITs, utilize leverage (and some may be highly leveraged), which increases investment risk and the risk normally associated with debt financing, and could potentially increase the Fund's volatility and losses. Exposure to such real estate may adversely affect Fund performance. Further, REITs are dependent upon specialized management skills, and their investments may be concentrated in relatively few properties, or in a small geographic area or a single property type. REITs also are subject to heavy cash flow dependency and, as a result, are particularly reliant on the proper functioning of capital markets. A variety of economic and other factors may adversely affect a lessee's ability to meet its obligations to a REIT. In the event of a default by a lessee, the REIT may experience delays in enforcing its rights as a lessor and may incur substantial costs associated in protecting its investments. In addition, a REIT could fail to qualify for favorable regulatory treatment.
- **Tax Risk.** Options entered into by the Fund may also be subject to the federal tax rules applicable to straddles under the Internal Revenue Code of 1986, as amended (the "Code"). If positions held by the Fund were treated as "straddles" for federal income tax purposes, or the Fund's risk of loss with respect to a position was otherwise diminished as set forth in Treasury regulations, dividends on stocks that are a part of such positions would not constitute qualified dividend income subject to such favorable income tax treatment in the hands of non-corporate shareholders or eligible for the dividends received deduction for corporate shareholders. In addition, generally, straddles are subject to certain rules that may affect the amount, character, and timing of the Fund's recognition of gains and losses with respect to straddle positions.

Performance

The Fund is new and therefore does not have a performance history for a full calendar year. In the future, performance information for the Fund will be presented in this section. Updated performance information is available on the Fund's website at lsfunds.com.

Portfolio Management

Adviser	Liquid Strategies, LLC
Portfolio Managers	Adam Stewart, CFA and Shawn Gibson have been portfolio managers of the Fund since its inception in July 2026.

Purchase and Sale of Fund Shares

You may purchase, redeem or exchange shares by mail (Liquid Strategies Funds, c/o U.S. Bank Global Fund Services, P.O. Box 219252, Kansas City, MO 64121-9252 (for regular mail) or 801 Pennsylvania Ave, Suite 219252, Kansas City, MO 64105-1307 (for overnight or express mail)), by wire or by telephone at 855-522-8565. Investors who wish to purchase, redeem or exchange Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial amount of investment in the Fund is \$1,000. Subsequent investments may be made with a minimum investment amount of \$100.

Tax Information

The Fund's dividends and distributions may be subject to Federal income taxes, and will be taxed as ordinary income or capital gains, unless you are a tax-exempt organization or are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. You may be taxed later upon withdrawal of monies from such tax-deferred or other tax-advantaged arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank or financial advisor), the Fund and/or its Adviser may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over other investments. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT THE FUNDS

Investment Objectives

Each Fund's investment objective may be changed by the Board of Listed Funds Trust (the "Trust") without shareholder approval upon written notice to shareholders.

Principal Investment Strategies

Each Fund has adopted a policy to comply with Rule 35d-1 under the Investment Company Act of 1940, as amended (the "1940 Act"), as described in this Prospectus. Such policies have been adopted as non-fundamental investment policies and may be changed without shareholder approval upon 60 days' written notice to shareholders. For purposes of these policies, the Funds define "equity securities" to mean common and preferred stocks, rights, warrants, depositary receipts, equity interests in real estate investment trusts, and master limited partnerships.

Each Fund seeks to achieve its investment objective in part through investment in ETFs that seek to obtain exposure to the performance of U.S. large-cap equity securities. Although each Fund may invest in an unlimited number of underlying ETFs in any amount, as of the date of this Prospectus, the Funds intend to invest more than 25% in the following underlying ETFs:

Vanguard S&P 500 ETF: This fund employs an indexing investment approach designed to track the performance of the S&P 500® Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. For more information about this Fund, including its prospectus and shareholder reports, go to www.vanguard.com.

State Street® SPDR S&P 500® ETF: This fund seeks to achieve its investment objective by holding a portfolio of the common stocks that are included in the S&P 500® Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. For more information about this Fund, including its prospectus and shareholder reports, go to www.ssga.com.

Allocation of a Fund's assets to these underlying ETFs may change over time.

Principal Investment Risks

An investment in a Fund entails risks. A Fund could lose money, or its performance could trail that of other investment alternatives. The following provides additional information about each Fund's principal risks. It is important that investors closely review and understand these risks before making an investment in a Fund. Each risk applies to each Fund unless otherwise specified. Just as in each Fund's summary section, the principal risks below are presented in alphabetical order to facilitate finding particular risks and comparing them with those of other funds. Each risk summarized below is considered a "principal risk" of investing in the applicable Fund, regardless of the order in which it appears.

- **Cybersecurity Risk.** With the increased use of technologies such as the Internet and the dependence on computer systems to perform business and operational functions, funds (such as a Fund) and their service providers may be prone to operational and information security risks resulting from cyber-attacks and/or technological malfunctions. In general, cyber-attacks are deliberate, but unintentional events may have similar effects. Cyber-attacks include, among others, stealing or corrupting data maintained online or digitally, preventing legitimate users from accessing information or services on a website, releasing confidential information without authorization, and causing operational disruption. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets or proprietary information, or cause a Fund, the Adviser, and/or other service providers (including custodians and financial intermediaries) to suffer data breaches or data corruption. Additionally, cybersecurity failures or breaches of the electronic systems of a Fund, the Adviser, or a Fund's other service providers, market makers, or the issuers of securities in which such Fund invests have the ability to disrupt and negatively affect the Fund's business operations, including the ability to purchase and sell Shares, potentially resulting in financial losses to the Fund and its shareholders. For instance, cyber-attacks or technical malfunctions may interfere with the processing of shareholder or other transactions, affect a Fund's ability to calculate its NAV, cause the release of private shareholder information or confidential Fund information, impede trading, cause reputational damage, and subject a Fund to regulatory fines, penalties or financial losses, reimbursement or other compensation costs, and additional compliance costs. Cyber-attacks or technical malfunctions may render records of Fund assets and transactions, shareholder ownership of Shares, and other data integral to the functioning of a Fund inaccessible or inaccurate or incomplete. A Fund also may incur substantial costs for cybersecurity risk management to prevent cyber incidents in the future. A Fund and its respective shareholders could be negatively impacted as a result.
- **Derivatives Securities Risk.** Each Fund invests in options that derive their performance from the performance of an underlying reference asset. Derivatives, such as the options in which a Fund invests, can be volatile and

involve various types and degrees of risks, depending upon the characteristics of a particular derivative. Derivatives may entail investment exposures that are greater than their cost would suggest, meaning that a small investment in a derivative could have a substantial impact on the performance of a Fund. A Fund could experience a loss if its derivatives do not perform as anticipated, or are not correlated with the performance of their underlying asset or if a Fund is unable to purchase or liquidate a position because of an illiquid secondary market. The market for many derivatives is, or suddenly can become, illiquid. Changes in liquidity may result in significant, rapid, and unpredictable changes in the prices for derivatives.

- **Equity Securities Risk.** The Funds are designed for investors who can accept the risks of investing in a portfolio with significant equity holdings. Equity holdings tend to be more volatile than other investment choices such as bonds and money market instruments because common stockholders, or holders of equivalent interests, generally have inferior rights to receive payments from issuers in comparison with the rights of preferred stockholders, bondholders and other creditors of such issuers. The value of a Fund's Shares will fluctuate as a result of the movement of the overall stock market or of the value of the individual securities held by the Fund, sometimes rapidly or unpredictably, resulting in losses. Equity securities may decline in value due to factors affecting equity securities markets generally or particular industries represented in those markets. The value of an equity security may also decline for a number of reasons, which directly relate to the issuer, such as management performance, changed investor perception financial leverage, and reduced demand for the issuer's goods or services. Investor perceptions are based on various and unpredictable factors including: expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises.
- **Exchange-Traded Funds Risk.** The Funds are subject to substantially the same risks as those associated with the direct ownership of the securities represented by an underlying ETF in which it invests. In addition, the shares of an underlying ETF may trade at a premium or discount to their intrinsic value (*i.e.*, the market value may differ from the net asset value ("NAV") of an ETF's shares) for a number of reasons. For example, supply and demand for shares of an underlying ETF or market disruptions may cause the market price of the underlying ETF to deviate from the value of the underlying ETF's investments, which may be exacerbated in less liquid markets.
- **Large-Capitalization Investing Risk.** The securities of large-capitalization companies may be relatively mature compared to smaller companies and, therefore, subject to slower growth during times of economic expansion. Large-capitalization companies also may be unable to respond quickly to new competitive challenges, such as changes in technology and consumer tastes.
- **Leveraging Risk.** When a Fund purchases or sells an instrument or enters into a transaction without investing an amount equal to the full economic exposure of the instrument or transaction, it creates leverage, which can result in the Fund losing more than it originally invested. As a result, these investments may magnify losses to the Fund, and even a small market movement may result in significant losses to the Fund. Leverage may also cause the Fund to be more volatile because it may exaggerate the effect of any increase or decrease in the value of the Fund's portfolio securities. The use of leverage may cause a Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations. Written option positions expose a Fund to potential losses many times the option premium received.
- **Management Risk.** The Funds are actively managed and use proprietary investment strategies and processes. There can be no guarantee that the Adviser's judgments about the attractiveness, value and potential appreciation of particular investments and strategies for a Fund will be correct or produce the desired results, and no guarantee that a Fund will achieve its investment objective or outperform other investment strategies over the short- or long-term market cycles. If the Adviser fails to accurately evaluate market risk or appropriately react to current and developing market conditions, a Fund's share price may be adversely affected. Securities selected by the Adviser may not perform as expected. This could result in a Fund's underperformance compared to other funds with similar investment objectives.
- **Market Risk.** Market risks, including political, regulatory, market, and economic or other developments, and developments that impact specific economic sectors, industries or segments of the market, can affect the value of a Fund's Shares. Each Fund is subject to the risk that the prices of, and the income generated by, securities held by the Fund may decline significantly and/or rapidly in response to adverse conditions or other developments affecting (or that are perceived to affect) individual companies or issuers, particular industries, or the market generally. Such developments may include real or perceived changes in prevailing interest rates, changes in inflation rates or expectations about inflation rates, deflation, adverse investor confidence or sentiment, general outlook for corporate earnings, changing economic, political (including geopolitical), social or financial market conditions, bank failures, actual or threatened imposition of tariffs (which may be imposed by U.S. and foreign governments) and trade disruptions, recession, changes in currency and inflation rates,

increased instability or general uncertainty, environmental or natural disasters, extreme weather or geological events, governmental actions, public health emergencies (such as the spread of infectious diseases, pandemics and epidemics), debt crises, terrorism, actual or threatened wars or other armed conflicts (such as the armed conflicts across the Middle East and ongoing Russia-Ukraine war in Europe, and the risk of expansion or collateral economic and other effects thereof) or ratings downgrades, technological developments (including those related to artificial intelligence) or failures (for example, widespread system outages or disruptions or faulty updates to software applications) and other similar events, each of which may be temporary or last for extended periods. For example, the threat or actual imposition of tariffs, trade restrictions, currency restrictions or similar actions (or retaliatory measures taken in response to such actions) could adversely affect a Fund's investments, including by leading to price volatility, overall declines in the U.S. and global investment markets, reduced liquidity and investment losses. These events have caused, and may in the future cause, significant disruptions to business operations, strained healthcare systems, disruptions to supply chains, large expansion of government deficits and debt as a result of government actions to mitigate the effects of such events, and widespread uncertainty regarding the long-term effects of such events. Such events may cause the value of securities owned by the Fund to go up or down, sometimes rapidly or unpredictably. There also is a risk that policy and legislative changes by the U.S. Government and/or Federal Reserve, or certain foreign governments and central banks, could cause increased volatility in financial markets and higher levels of Fund redemptions, which could have a negative impact on the Fund. These events may lead to periods of volatility and increased redemptions, which could cause the Fund to experience a loss when selling securities to meet redemption requests by shareholders. The risk of loss increases if the redemption requests are unusually large or frequent. Markets also tend to move in cycles, with periods of rising and falling prices. If there is a general decline in the securities and other markets, your investment in the Fund may lose value, regardless of the individual results of the securities and other instruments in which the Fund invests.

These or similar events could be prolonged and could adversely affect the value and liquidity of a Fund's investments, impair a Fund's ability to satisfy redemption requests, and negatively impact a Fund's performance. Furthermore, economies and financial markets throughout the world are becoming increasingly interconnected. As a result, whether or not a Fund invests in securities of issuers located in or with significant exposure to countries experiencing economic and financial difficulties, the value and liquidity of a Fund's investments may be negatively affected.

- **MLP Risk.** MLP investment returns are enhanced during periods of declining or low interest rates and tend to be negatively influenced when interest rates are rising. In addition, most MLPs are leveraged investments and are subject to interest rate risk as higher interest rates generally result in increased costs associated with MLPs' floating rate debt. As such, a significant upward swing in interest rates would also drive interest expense higher. Furthermore, most MLPs grow by acquisitions partly financed by debt, and higher interest rates could make it more difficult to make acquisitions. Certain MLP securities may trade in lower volumes due to their smaller capitalizations. Accordingly, those MLPs may be subject to more abrupt or erratic price movements and may lack sufficient market liquidity to enable the Funds to effect sales at an advantageous time or without a substantial drop in price. MLP investments also entail many of the general tax risks of investing in a partnership. Limited partners in an MLP typically have limited control and limited rights to vote on matters affecting the partnership. Additionally, there is always the risk that an MLP will fail to qualify for favorable tax treatment. MLPs may incur environmental costs and liabilities due to the nature of their businesses and the substances they handle. Changes in existing laws, regulations or enforcement policies governing the sectors in which MLPs operate could significantly increase the compliance costs of MLPs.
- **New Fund Risk.** Each Fund is a recently organized investment company with no operating history. As a result, prospective investors have no track record or history on which to base their investment decision. Investors will not be able to evaluate a Fund against one or more comparable funds on the basis of relative performance until such Fund has established a track record.
- **Non-Diversification Risk.** Each Fund is considered to be non-diversified, which means that they may invest a greater percentage of their assets in the securities of a single issuer or a lesser number of issuers than if they were diversified funds. As a result, a Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a lesser number of issuers than a fund that invests more widely. This may increase a Fund's volatility and cause the performance of a relatively small number of issuers to have a greater impact on such Fund's performance.
- **Options Risk** (*Enhanced Equity Fund only*). Purchasing options is a speculative activity and entails greater than ordinary investment risks. The Fund's use of call options can lead to losses because of adverse movements in the price or value of the underlying asset, which may be magnified by certain features of the options. Purchasing of call options involves the payment of premiums, which may adversely affect the Fund's

performance. Purchasing a call option gives the purchaser of the option the right to buy a specified quantity of an underlying asset at a fixed exercise price over a defined period of time. Purchased call options may expire worthless resulting in the Fund's loss of the premium it paid for the option. The value of an option may be adversely affected if the market for the option becomes less liquid or smaller, and will be affected by changes in the value or yield of the option's underlying asset, an increase in interest rates, a change in the actual or perceived volatility of the stock market or the underlying asset and the remaining time to expiration. Additionally, the value of an option does not increase or decrease at the same rate as the underlying asset. The Fund's use of options may reduce the Fund's ability to profit from increases in the value of the underlying asset. If the price of the underlying asset of an option is below the strike price of a purchased call option, the value of the option, and consequently of the Fund, may decline significantly more than if the Fund invested directly in the underlying asset instead of using options. The Fund could lose a significant amount or nearly all of its value if the price of an underlying asset changes significantly enough. The success of the Fund's investment in options depends upon many factors, such as the price of the options which is a function of various factors that may change rapidly over time. If a counterparty defaults, the Fund's only recourse will be to pursue contractual remedies against the counterparty, and the Fund may be unsuccessful in its pursuit. The Fund thus assume the risk that it may be delayed in or prevented from obtaining payments owed to it pursuant to an over-the-counter options transaction.

- **Options Risk (*Hedged Equity Fund only*).** Purchasing options is a speculative activity and entail greater than ordinary investment risks. The Fund's use of put options can lead to losses because of adverse movements in the price or value of the underlying asset, which may be magnified by certain features of the options. When selling a put option, the Fund will receive a premium; however, this premium may not be enough to offset a loss incurred by the Fund if the price of the underlying asset is below the strike price by an amount equal to or greater than the premium. Purchasing of put options involves the payment of premiums, which may adversely affect the Fund's performance. Purchasing a put option gives the purchaser of the option the right to sell a specified quantity of an underlying asset at a fixed exercise price over a defined period of time. Purchased put options may expire worthless resulting in the Fund's loss of the premium it paid for the option. The value of an option may be adversely affected if the market for the option becomes less liquid or smaller, and will be affected by changes in the value or yield of the option's underlying asset, an increase in interest rates, a change in the actual or perceived volatility of the stock market or the underlying asset and the remaining time to expiration. Additionally, the value of an option does not increase or decrease at the same rate as the underlying asset. If the price of the underlying asset of an option is above the strike price of a written put option, the value of the option, and consequently of the Fund, may decline significantly more than if the Fund invested directly in the underlying asset instead of using options. The Fund could lose a significant amount or nearly all of its value if the price of an underlying asset changes significantly enough.
- **REIT Risk.** Investment in real estate companies, including REITs, exposes the Funds to the risks of owning real estate directly. These include risks related to general, regional and local economic conditions; fluctuations in interest rates and property tax rates; shifts in zoning laws, environmental regulations and other governmental action such as the exercise of eminent domain; increased operating expenses; lack of availability of mortgage funds or other limits to accessing the credit or capital markets; losses due to natural disasters; overbuilding; losses due to casualty or condemnation; changes in property values and rental rates; and other factors. Real estate is highly sensitive to general and local economic conditions and developments. The U.S. real estate market may, in the future, experience and has, in the past, experienced a decline in value, with certain regions experiencing significant losses in property values. Many real estate companies, including REITs, utilize leverage (and some may be highly leveraged), which increases investment risk and the risk normally associated with debt financing, and could potentially increase a Fund's volatility and losses. Exposure to such real estate may adversely affect Fund performance.

Investments in REITs involve unique risks. REITs may have limited financial resources, may trade less frequently and in limited volume, and may be more volatile than other securities. In addition, to the extent a Fund holds interests in REITs, it is expected that investors in the Fund will bear two layers of asset-based management fees and expenses (directly at the Fund level and indirectly at the REIT level). In addition, REITs are dependent upon management skills and generally may not be diversified. REITs also are subject to heavy cash flow dependency, defaults by borrowers or lessees and self-liquidation. In addition, U.S. REITs are subject to special U.S. federal tax requirements. A U.S. REIT that fails to comply with such tax requirements may be subject to U.S. federal income taxation, which may affect the value of the REIT and the characterization of the REIT's distributions. The U.S. federal tax requirement that a REIT distributes substantially all of its net income to its shareholders may result in the REIT having insufficient capital for future expenditures. A U.S. REIT that successfully maintains its qualification may still become subject to U.S. federal, state and local taxes, including excise, penalty, franchise, payroll, mortgage recording, and transfer taxes, both directly and indirectly through

its subsidiaries. In the event of a default by a borrower or lessee, the REIT may experience delays in enforcing its rights as a mortgagee or lessor and may incur substantial costs associated with protecting investments.

- **Tax Risk.** If positions held by a Fund were treated as “straddles” for federal income tax purposes, or the Fund’s risk of loss with respect to a position was otherwise diminished as set forth in Treasury regulations, dividends on stocks that are a part of such positions would not constitute qualified dividend income subject to such favorable income tax treatment in the hands of non-corporate shareholders or eligible for the dividends received deduction for corporate shareholders. In addition, generally, straddles are subject to certain rules that may affect the amount, character and timing of a Fund’s gains and losses with respect to straddle positions by requiring, among other things, that: (1) any loss realized on disposition of one position of a straddle may not be recognized to the extent that a Fund has unrealized gains with respect to the other position in such straddle; (2) a Fund’s holding period in straddle positions be suspended while the straddle exists (possibly resulting in a gain being treated as short-term capital gain rather than long-term capital gain); (3) the losses recognized with respect to certain straddle positions that are part of a mixed straddle and that are not subject to Section 1256 of the Code be treated as 60% long-term and 40% short-term capital loss; (4) losses recognized with respect to certain straddle positions that would otherwise constitute short-term capital losses be treated as long-term capital losses; and (5) the deduction of interest and carrying charges attributable to certain straddle positions may be deferred.

PORTFOLIO HOLDINGS INFORMATION

Information about each Fund’s daily portfolio holdings is available at lsfunds.com. A complete description of the Funds’ policies and procedures with respect to the disclosure of the Funds’ portfolio holdings is available in the Funds’ Statement of Additional Information (the “SAI”).

MANAGEMENT

Investment Adviser

The Funds have entered into an investment advisory agreement (the “Advisory Agreement”) with Liquid Strategies, LLC, a Delaware limited liability company located at 3550 Lenox Road, Suite 2550, Atlanta, Georgia 30326. The Adviser is an SEC-registered investment adviser. The Adviser, subject to the general supervision and oversight of the Board, provides an investment program for each Fund and manages the day-to-day investment of each Fund’s assets. Each Fund compensates the Adviser for its services at the annual rate of 1.49% of its average daily net assets, payable on a monthly basis in arrears.

Fund Expenses. Each Fund is responsible for its own operating expenses; however, pursuant to an operating expense limitation agreement between the Adviser and the Trust, on behalf of the Funds, the Adviser has agreed to waive its management fees and/or reimburse expenses of the Funds to ensure that each Fund’s total annual fund operating expenses (exclusive of Excluded Expenses) do not exceed an annual rate of 2.49% of each Fund’s average daily net assets through at least July 9, 2027, unless sooner terminated. To the extent a Fund incurs Excluded Expenses, Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement may be greater than 2.49% of a Fund’s average daily net assets. The Adviser may request recoupment of previously waived fees and expenses paid from a Fund for up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund’s expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; and (2) the expense limitation in place at the time of the recoupment. Any such reimbursement will be reviewed by the Board of Trustees. The operating expense limitation agreement may be terminated only by, or with the consent of, the Board of Trustees.

A discussion regarding the basis of the Board of Trustees’ approval of the Advisory Agreement will be available in the Funds’ next Form N-CSR filing with the SEC.

Portfolio Managers

The individuals identified below are jointly and primarily responsible for the day-to-day management of each Fund’s portfolios.

Adam Stewart, CFA. Mr. Stewart has more than 28 years of investment industry experience and co-founded the Adviser in 2013. He is a Portfolio Manager and Director of Trading on the firm’s investment team, which is responsible for setting portfolio allocations based on the risk profile of the markets. Mr. Stewart began his career at Franklin Templeton in 1997 and later served as Head of Equity Trading at Trusco Capital Management along with managing equity trading operations. Most recently, Mr. Stewart was a founding partner and Director of Trading for Perimeter Capital Management. Mr. Stewart received his Chartered Financial Analyst (CFA) designation in 2001 and earned his B.S. from Auburn University.

Shawn Gibson. Mr. Gibson co-Founded the Adviser in 2013 and serves as the Chief Investment Officer and Portfolio Manager on the firm's investment team, and is a member of the firm's Executive Management Committee. He brings more than 30 years of investment experience primarily in the area of options trading and options portfolio management. Mr. Gibson started trading options in 1997 with the Timber Hill Group, one of the world's largest options market making firms. While at Timber Hill, Mr. Gibson was an options market maker on the floor of the Pacific Exchange and was later promoted to join a small team in Greenwich, CT that was responsible for overseeing the firm's multi-billion dollar options trading portfolio. He subsequently served as Head of Options Strategy and Director of Alternative Investments at BB&T, where he worked with advisors and their clients to develop options-based hedging and yield enhancing strategies. Mr. Gibson was voted as one of the Top 40 leaders under 40 while living in Richmond after being nominated by his peers due to his professional accomplishments and community involvement. Mr. Gibson earned his B.S. in Commerce from the University of Virginia.

Other Service Providers

Foreside Fund Services, LLC, a wholly-owned subsidiary of Foreside Financial Group, LLC (doing business as ACA Group) (the "Distributor"), serves as the principal underwriter and distributor of the Funds' Shares. The Distributor's principal address is 190 Middle Street, Suite 301, Portland, Maine 04101. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934 and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Distributor has no role in determining the policies of the Funds or the securities that are purchased or sold by the Funds and is not affiliated with the Adviser or any of its affiliates.

U.S. Bank Global Fund Services, located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as the administrator and transfer agent (as applicable) for the Funds.

U.S. Bank National Association, located at 1555 North Rivercenter Drive, Suite 302, Milwaukee, Wisconsin 53212, serves as the custodian for the Funds.

Morgan, Lewis & Bockius LLP, located at 1111 Pennsylvania Avenue, N.W., Washington, D.C. 20004, serves as legal counsel to the Trust.

Cohen & Company, Ltd., located at 1835 Market Street, Suite 310, Philadelphia, Pennsylvania 19103, serves as the Funds' independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Funds.

HOW TO BUY AND SELL SHARES

Share Price

The price of each Fund's shares is its NAV. The NAV per share is calculated by dividing the value of a Fund's total assets, less its liabilities, by the number of its shares outstanding. In calculating the NAV, portfolio securities are valued using current market values or official closing prices, if available. The NAV is calculated at the close of regular trading on the New York Stock Exchange ("NYSE") (generally 4:00 p.m., Eastern time). The NAV will not be calculated on days on which the NYSE is closed for trading. If the NYSE closes early, each Fund will calculate its NAV as of the close of trading on the NYSE on that day. If an emergency exists as permitted by the SEC, the NAV may be calculated at a different time.

Each equity security owned by a Fund that is listed on a national securities exchange, except for portfolio securities listed on the NASDAQ Stock Market LLC ("NASDAQ"), is valued at its last sale price or official closing price on that exchange on the close of that exchange on the date as of which assets are valued. If a security is listed on more than one exchange, a Fund will use the price on the exchange that the Fund generally considers to be the principal exchange on which the security is traded.

Portfolio securities listed on NASDAQ will be valued at the NASDAQ Official Closing Price ("NOCP"), which may not necessarily represent the last sale price. If the NOCP is not available, such securities shall be valued at the last sell price on the day of valuation. If there has been no sale on such exchange or on NASDAQ on such day, the security is valued at the most recent quoted bid price at the close of the exchange on such day or the security is valued at the latest sale price on the "composite market" for the day such security is being valued. The composite market is defined as the consolidation of the trade information provided by national securities and foreign exchanges and over-the-counter ("OTC") markets as published by an approved independent pricing service ("Pricing Service").

Exchange-traded options are valued at the composite price, using the National Best Bid and Offer quotes. If there are no trades for the option on a given business day composite option pricing calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is traded. Option contracts on securities, currencies and other financial instruments traded in the OTC market with less than 180 days remaining until their expiration are valued at the evaluated price provided by the broker-dealer with which the option was traded. Option contracts on

securities, currencies and other financial instruments traded in the OTC market with 180 days or more remaining until their expiration are valued at the prices provided by a recognized independent broker-dealer.

If market quotations are not readily available or deemed unreliable, a security or other asset will be valued at its fair value in accordance with Rule 2a-5 under the 1940 Act as determined under the Adviser's fair value pricing procedures subject to oversight by the Board of Trustees. These fair value pricing procedures will also be used to price a security when corporate events, events in the securities market or world events cause the Adviser to believe that the security's last sale price may not reflect its actual fair market value. The intended effect of using fair value pricing procedures is to ensure that a Fund's shares are accurately priced. The Adviser will regularly evaluate whether a Fund's fair value pricing procedures continue to be appropriate in light of the specific circumstances of the Fund and the quality of prices obtained.

When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different (higher or lower) from the price of the security quoted or published by others, or the value when trading resumes or is realized upon its sale. Therefore, if a shareholder purchases or redeems Fund shares when a Fund holds securities priced at a fair value, the number of shares purchased or redeemed may be higher or lower than it would be if a Fund were using market value pricing. The Adviser anticipates that each Fund's portfolio holdings will be fair valued only if market quotations for those holdings are not readily available or are considered unreliable.

In the case of foreign securities, the occurrence of certain events after the close of foreign markets, but prior to the time a Fund's NAV is calculated (such as a significant surge or decline in the U.S. or other markets) often will result in an adjustment to the trading prices of foreign securities when foreign in good order markets open on the following business day. If such events occur, a Fund will value foreign securities at fair value, taking into account such events, in calculating the NAV. In such cases, use of these evaluated prices can reduce an investor's ability to seek to profit by estimating a Fund's NAV in advance of the time the NAV is calculated. In the event a Fund holds portfolio securities that trade in foreign markets or that are primarily listed on foreign exchanges that trade on weekends or other days when the Funds do not price their shares, a Fund's NAV may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

How to Purchase Shares

Each Fund's shares are only available to certain 401(k) plan participants having self-directed brokerage accounts. All purchase requests received in good order by the Funds' transfer agent, U.S. Bancorp Fund Services, LLC (the "Transfer Agent"), or by an Authorized Intermediary (as defined below), before the close of the NYSE (generally 4:00 p.m., Eastern time) will be processed at that day's NAV per share. Purchase requests received by the Transfer Agent or an Authorized Intermediary after the close of the NYSE will receive the next business day's NAV per share. Purchase requests received by the Transfer Agent or an Authorized Intermediary after the close of the NYSE (generally 4:00 p.m., Eastern time) will receive the next business day's NAV per share. An Authorized Intermediary is a financial intermediary (or its authorized designee) that has made arrangements with the Funds to receive purchase and redemption orders on their behalf. For additional information about purchasing shares through financial intermediaries, please see "Purchasing Shares Through a Financial Intermediary," below.

All account applications (each an "Account Application") to purchase Fund shares are subject to acceptance by the Funds and are not binding until so accepted. It is the policy of the Funds not to accept applications under certain circumstances or in amounts considered disadvantageous to other shareholders. Your order will not be accepted until the Funds or the Transfer Agent receives a completed Account Application. The Funds reserve the right to reject any Account Application.

The Funds reserve the right to reject any purchase order or suspend the offering of shares if, in their discretion, it is in a Fund's best interest to do so. For example, a purchase order may be rejected if it appears so large that it would disrupt the management of a Fund. Purchases may also be rejected from persons believed to be "market-timers," as described under the section entitled "Tools to Combat Frequent Transactions," below. In addition, a service fee, which is currently \$25, as well as any loss sustained by a Fund, will be deducted from a shareholder's account for any payment that is returned to the Transfer Agent unpaid. Written notice of a rejected purchase order will be provided to the investor within one or two business days under normal circumstances. The Funds and the Transfer Agent will not be responsible for any losses, liability, cost or expense resulting from rejecting any purchase order. Your order will not be accepted until a completed Account Application is received by the Funds or the Transfer Agent.

Shares of the Funds have not been registered for sale outside of the United States. The Funds generally do not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

Minimum Investments. The minimum initial investment in a Fund is \$1,000 and additional subsequent investments can be made at a minimum amount of \$100. The minimum investment amount for qualified retirement accounts is \$1,000 with no minimum amount for subsequent investments. The Funds reserve the right to change or waive their minimum initial investment or minimum subsequent investment policies at any time. Shareholders will be given at least 30 days' written notice of any increase in the minimum dollar amount of initial or subsequent investments. The minimum investment may be modified for certain financial intermediaries that submit trades on behalf of underlying investors. Certain intermediaries also may have investment minimums, which may differ from a Fund's minimums, and may be waived at the intermediaries' discretion. For accounts sold through financial intermediaries, it is the primary responsibility of the financial intermediary to ensure compliance with investment minimums.

Purchase Requests Must be Received in Good Order

Your share price will be the next NAV per share calculated after the Transfer Agent or your Authorized Intermediary receives your purchase request in good order. For purchases made through the Transfer Agent, "good order" means that your purchase request includes:

- the name of the Fund;
- the dollar amount of shares to be purchased;
- your Account Application or investment stub; and
- a check payable to the name of the Fund in which you are investing.

For information about your financial intermediary's requirements for purchases in good order, please contact your financial intermediary.

Purchase by Mail. To purchase a Fund's shares by mail, simply complete and sign the Account Application and mail it, together with your check made payable to the Fund in which you are investing, to one of the addresses below. To make additional investments once you have opened your account, write your account number on the check and send it together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If you do not have the Invest by Mail form, include the Fund name and your name, address, and account number on a separate piece of paper and mail it with your check made payable to:

Regular Mail

Overlay Shares Funds
c/o U.S. Bank Global Fund Services
PO Box 219252
Kansas City, MO 64121-9252

Overnight or Express Mail

Overlay Shares Funds
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave Suite 219252
Kansas City, MO 64105-1307

The Funds do not consider the U.S. Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders does not constitute receipt by the Transfer Agent. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices. All purchase checks must be in U.S. dollars drawn on a domestic financial institution. The Funds will not accept payment in cash or money orders. To prevent check fraud, the Funds will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. The Funds are unable to accept post-dated checks or any conditional order or payment.

Purchase by Wire. If you are making your first investment in the Funds through a wire purchase, the Transfer Agent must have a completed Account Application before you wire funds. You can mail or use an overnight service to deliver your Account Application to the Transfer Agent at the above address. Upon receipt of your completed Account Application, the Transfer Agent will establish an account for you. Once your account has been established, you may instruct your bank to send the wire. Prior to sending the wire, please call the Transfer Agent at 855-522-8565 to advise them of the wire and to ensure proper credit upon receipt. Your bank must include the name of the Fund, your name and your account number so that monies can be correctly applied. Your bank should transmit immediately available funds by wire to:

Wire to: U.S. Bank National Association
777 East Wisconsin Avenue
Milwaukee, Wisconsin 53202

ABA Number: 075000022

Credit: U.S. Bancorp Fund Services, LLC

Account: 112-952-137

Further Credit: (Name of the Fund in which you are investing)
(Shareholder Name/Account Registration)
(Shareholder Account Number)

Wired funds must be received prior to the close of the NYSE (generally 4:00 p.m., Eastern time) to be eligible for same day pricing. The Funds and U.S. Bank National Association, the Funds' custodian, are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

Investing by Telephone. Telephone purchase privileges are automatically provided unless you specifically decline the option on your Account Application. You must also have submitted a voided check or a savings deposit slip to have banking information established on your account. This option allows investors to move money from their bank account to their Fund account upon request. If your account is open for at least 7 business days, you may purchase additional shares by calling the Funds toll free at 855-522-8565. Only bank accounts held at domestic financial institutions that are Automated Clearing House ("ACH") members may be used for telephone transactions. The minimum telephone purchase amount is \$1,000. If your order is received by the Transfer Agent or an Authorized Intermediary prior to the close of the NYSE (generally 4:00 p.m., Eastern time), shares will be purchased in your account at the applicable price determined on the day your order is placed. During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to place your telephone transaction.

Automatic Investment Plan. For your convenience, the Funds offers an Automatic Investment Plan ("AIP"). Once your account has been opened with the initial minimum investment you may make additional purchases at regular intervals through the AIP. The AIP provides a convenient method to have monies deducted from your bank account, for investment into a Fund, on a monthly, quarterly, semi-annual or annual basis. There is no minimum investment required to participate in the AIP, however, your financial institution must be a member of the ACH network. The Funds may terminate or modify this privilege at any time. You may terminate your participation in the AIP at any time by notifying the Transfer Agent five days prior to the effective date of the request. If your bank rejects your payment, the Funds' Transfer Agent will charge a \$25 fee to your account. To begin participating in the AIP, please complete the Automatic Investment Plan section on the Account Application or call the Funds' Transfer Agent at 855-522-8565 for instructions.

Purchasing Shares Through a Financial Intermediary. Investors may be charged a fee if they effect transactions through a financial intermediary. If you are purchasing shares through a financial intermediary, you must follow the procedures established by your financial intermediary. Your financial intermediary is responsible for sending your purchase order and wiring payment to the Transfer Agent. Your financial intermediary holds the shares in your name and receives all confirmations of purchases and sales. Financial intermediaries placing orders for themselves or on behalf of their customers should call the Funds toll free at 855-522-8565, or follow the instructions listed in the sections above entitled "Investing by Telephone," "Purchase by Mail" and "Purchase by Wire."

If you place an order for a Fund's shares through a financial intermediary that is not an Authorized Intermediary in accordance with such financial intermediary's procedures, and such financial intermediary then transmits your order to the Transfer Agent in accordance with the Transfer Agent's instructions, your purchase will be processed at the applicable price next calculated after the Transfer Agent receives your order. The financial intermediary must promise to send to the Transfer Agent immediately available funds in the amount of the purchase price in accordance with the Transfer Agent's procedures. If payment is not received within the time specified, the Transfer Agent may rescind the transaction and the financial intermediary will be held liable for any resulting fees or losses.

In the case of Authorized Intermediaries that have made satisfactory payment or redemption arrangements with a Fund, orders will be processed at the applicable price next calculated after receipt in good order by the Authorized Intermediary (or its authorized designee), consistent with applicable laws and regulations. An order is deemed to be received when a Fund or an Authorized Intermediary accepts the order. Authorized Intermediaries may be authorized to designate other intermediaries to receive purchase and redemption requests on behalf of the Funds.

For more information about your financial intermediary's rules and procedures, whether your financial intermediary is an Authorized Intermediary, and whether your financial intermediary imposes cut-off times for the receipt of

orders that are earlier than the cut-off times established by the Funds, you should contact your financial intermediary directly.

Anti-Money Laundering Program. The Trust has established an Anti-Money Laundering Compliance Program as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the “USA PATRIOT Act”) and related anti-money laundering laws and regulations. To ensure compliance with these laws, the Account Application asks for, among other things, the following information for all “customers” seeking to open an “account” (as those terms are defined in rules adopted pursuant to the USA PATRIOT Act):

- full name;
- date of birth (individuals only);
- Social Security or taxpayer identification number; and
- permanent street address (a P.O. Box number alone is not acceptable).

If you are opening an account in the name of a certain legal entity (*e.g.*, a partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners of the legal entity. Accounts opened by entities, such as corporations, limited liability companies, partnerships or trusts will require additional documentation.

If any information listed above is missing, your Account Application will be returned and your account will not be opened. In compliance with the USA PATRIOT Act and other applicable anti-money laundering laws and regulations, the Transfer Agent will verify the information on your application. The Funds reserve the right to request additional clarifying information and may close your account and redeem your shares at the next computed NAV if such clarifying information is not received by a Fund within a reasonable time of the request or if a Fund cannot form a reasonable belief as to the true identity of a customer. In the rare event that we are unable to verify your identity, the Funds reserve the right to redeem your account at the current day’s NAV. If you require additional assistance when completing your application, please contact the Transfer Agent at 855-522-8565.

How to Redeem Shares

Orders to sell or “redeem” shares may be placed either directly with the Funds or through a financial intermediary. If you originally purchased your shares through a financial intermediary, including an Authorized Intermediary, your redemption order must be placed with the same financial intermediary in accordance with the procedures established by that financial intermediary. Your financial intermediary is responsible for sending your order to the Transfer Agent and for crediting your account with the proceeds. You may redeem Fund shares on any business day that a Fund calculates its NAV. To redeem shares directly with the Funds, you must contact the Funds either by mail or by telephone to place a redemption request. Shares of the Funds are redeemed at the next calculated NAV after a Fund has received your redemption request in good order. Your redemption request must be received in good order (as discussed under “Payment of Redemption Proceeds” below) prior to the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) by the Transfer Agent or by your Authorized Intermediary in order to obtain that day’s closing NAV. Redemption requests received by the Transfer Agent or an Authorized Intermediary after the close of the NYSE will be treated as though received on the next business day.

Shareholders who hold their shares through an IRA or other tax-advantaged account must indicate on their written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding. Shares held in IRA accounts may be redeemed by telephone at 855-522-8565. Investors will be asked whether or not to withhold taxes from any redemption.

Payment of Redemption Proceeds. You may redeem your Fund shares at the NAV per share next determined after the Transfer Agent or your Authorized Intermediary receives your redemption request in good order. Your redemption request cannot be processed on days the NYSE is closed. Proceeds from redemption requests received by the Transfer Agent or your Authorized Intermediary in good order before the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) will usually be sent one to three business days following the receipt of your redemption request.

A redemption request made through the Transfer Agent will be deemed in “good order” if it includes:

- the shareholder’s name;
- the name of the Fund you are invested in;
- the account number;
- the share or dollar amount to be redeemed; and

- signatures by all shareholders on the account and signature guarantee(s), if applicable.

The Funds reserves the right to change the requirements of “good order.” Shareholders will be given advance notice if the requirements of “good order” change. For information about your financial intermediary’s requirements for redemption requests in good order, please contact your financial intermediary.

You may receive proceeds of your sale by a check sent to the address of record, electronically via the ACH network using the previously established bank instructions or via federal wire transfer to your pre-established bank account. The Funds typically expects that they will take one to three business days following the receipt of your redemption request to pay out redemption proceeds, regardless of whether the redemption proceeds are paid by check, ACH transfer or wire. Please note that wires are subject to a \$15 fee. There is no charge to have proceeds sent via ACH; however, funds are typically credited to your bank within two to three business days after redemption. Proceeds will be sent within seven calendar days after a Fund receives your redemption request, unless the Fund has suspended your right of redemption or postponed the payment date as permitted under the federal securities laws.

The Funds typically expects they will hold cash or cash equivalents to meet redemption requests. The Funds may also use the proceeds from the sale of portfolio securities to meet redemption requests if consistent with the management of the Funds. These redemption methods will be used regularly under normal conditions and may also be used during periods of stressed market conditions.

The Transfer Agent may delay payment of your redemption proceeds for up to 12 calendar days from the date of purchase or until your payment has cleared, whichever comes first. Shareholders can avoid this delay by utilizing the wire purchase option.

Furthermore, there are certain times when you may be unable to sell Fund shares or receive proceeds. Specifically, the Funds may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days as determined by the SEC: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which disposal by the Funds of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Funds to fairly determine the value of its net assets; or (3) for such other periods as the SEC may permit for the protection of shareholders. Your ability to redeem shares by telephone may be delayed or restricted after you change your address. You may change your address at any time by telephone or written request addressed to the Transfer Agent. Confirmation of an address change will be sent to both your old and new address. Redemption proceeds will be sent to the address of record. The Funds are not responsible for interest lost on redemption amounts due to lost or misdirected mail.

Please note, under unusual circumstances, the Funds may suspend redemptions, as permitted by federal securities law. The Funds may delay paying redemption proceeds for up to seven calendar days after receiving a request if an earlier payment could adversely affect a Fund.

Redemption In-Kind. The Funds generally pay redemption proceeds in cash. However, the Funds reserve the right to pay all or part of your redemption proceeds in liquid securities (*i.e.*, in kind) with a market value equal to the redemption price. If a Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges when converting the securities to cash. These securities redeemed in-kind remain subject to general market risks until sold. For federal income tax purposes, redemptions in-kind are taxed in the same manner to a redeeming shareholder as redemptions paid in cash. In addition, sales of such in-kind securities may generate taxable gains.

Redemptions in-kind are typically used to meet redemption requests that represent a large percentage of a Fund’s net assets in order to minimize the effect of large redemptions on the Fund and its remaining shareholders. Redemptions in-kind may also be used during periods of stressed market conditions. The Funds have in place a line of credit that may be used to meet redemption requests during periods of stressed market conditions.

Redemption in-kind proceeds are limited to securities that are traded on a public securities market or for which quoted bid prices are available. In the unlikely event that a Fund redeems shares in-kind, the procedures utilized by a Fund to determine the securities to be distributed to redeeming shareholders will generally be representative of a shareholder’s interest in a Fund’s portfolio securities. However, the Funds may also redeem in-kind using individual securities as circumstances dictate.

Signature Guarantees. The Transfer Agent may require a signature guarantee for certain redemption requests. Signature guarantees can be obtained from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”), but not from a notary public. A signature guarantee, from either a Medallion program member or a non-Medallion program member, of each owner is required in the following situations:

- if ownership is being changed on your account;
- when redemption proceeds are payable or sent to any person, address or bank account not on record;
- when a redemption request is received by the Transfer Agent and the account address has changed within the last 15 calendar days; or
- for all redemptions in excess of \$100,000 from any shareholder account.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, a signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

In addition to the situations described above, the Funds and the Transfer Agent each reserve the right to require a signature guarantee or other acceptable signature verification in other instances based on the circumstances relative to the particular situation.

Redemption by Mail. You can execute most redemptions by furnishing an unconditional written request to the Funds to redeem your shares at the current NAV per share. Redemption requests in writing should be sent to the Transfer Agent at:

Regular Mail

Overlay Shares Funds
c/o U.S. Bank Global Fund Services
PO Box 219252
Kansas City, MO 64121-9252

Overnight or Express Mail

Overlay Shares Funds
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave Suite 219252
Kansas City, MO 64105-1307

The Funds do not consider the U.S. Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

Telephone Redemption. Telephone redemption privileges are automatically provided unless you specifically decline the option on your Account Application. You may redeem shares, in amounts of \$100,000 or less, by instructing the Funds by telephone at 855-522-8565. A signature verification from a Signature Validation Program member or other acceptable form of authentication from a financial institution source may be required of all shareholders in order to add or change telephone redemption privileges on an existing account. Telephone redemptions will not be made if you have notified the Transfer Agent of a change of address within 15 calendar days before the redemption request. Once a telephone transaction has been placed, it may not be cancelled or modified after the close of regular trading on the NYSE (generally 4:00 p.m., Eastern time). If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person. All telephone calls are recorded for your protection. Written confirmation will be provided for all purchase and redemption transactions initiated by telephone.

Wire Redemption. Wire transfers may be arranged to redeem shares for amounts of \$1,000 or more. The Transfer Agent charges a fee, currently \$15, per wire redemption against your account on dollar specific trades, and from proceeds on complete redemptions and share-specific trades. There is no charge to have proceeds sent via ACH.

Systematic Withdrawal Program ("SWP"). The Funds offer a SWP whereby shareholders or their representatives may request a redemption in a specific dollar amount be sent to them each month, calendar quarter or annually. Investors may choose to have a check sent to the address of record, or proceeds may be sent to a pre-designated bank account via the ACH network. To start the SWP, your account must have Fund shares with a value of at least \$10,000, and the minimum payment amount is \$100. The SWP may be terminated or modified by the Funds at any time. You may terminate your participation in the SWP at any time in writing or by telephoning the Transfer Agent no later than five days before the next scheduled withdrawal. A withdrawal under the SWP involves a redemption of Fund shares, and may result in a taxable capital gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds the amounts credited to your account, the account ultimately may be depleted. To establish the SWP, complete the SWP section of the Account Application. Please call 855-522-8565 for additional information regarding the SWP.

The Funds' Right to Redeem an Account. The Funds reserve the right to redeem the shares of any shareholder whose account balance is less than \$1,000, other than as a result of a decline in the NAV of the Funds or for market reasons. The Funds will provide shareholders with written notice 30 calendar days prior to redeeming the shareholder's account. A redemption by a Fund of a shareholder's account may result in a taxable capital gain or loss for federal income tax purposes.

Tools to Combat Frequent Transactions

The Funds are intended for long-term investors. Short-term “market-timers” who engage in frequent purchases and redemptions may disrupt a Fund’s investment program and create additional transaction costs that are borne by all of a Fund’s shareholders. The Board of Trustees has adopted policies and procedures that are designed to discourage excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm performance. The Funds take steps to reduce the frequency and effect of these activities in a Fund. These steps may include, among other things, monitoring trading activity and using fair value pricing when the Adviser determines current market prices are not readily available. Although these efforts are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity will occur. The Funds seek to exercise its judgment in implementing these tools to the best of its ability in a manner that it believes is consistent with shareholder interests. Except as noted herein, the Funds will apply all restrictions uniformly in all applicable cases.

Monitoring Trading Practices. The Funds monitor selected trades in an effort to detect excessive short-term trading activities. If, as a result of this monitoring, the Funds believe that a shareholder has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder’s accounts. In making such judgments, the Funds seek to act in a manner that it believes is consistent with the best interests of its shareholders. The Funds use a variety of techniques to monitor for and detect abusive trading practices. These techniques may change from time to time as determined by the Funds in their sole discretion. To minimize harm to a Fund and its shareholders, the Funds reserve the right to reject any purchase order (but not a redemption request), in whole or in part, for any reason and without prior notice. The Funds may decide to restrict purchase and sale activity in its shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect Fund performance.

Fair Value Pricing. The Funds employ fair value pricing selectively to ensure greater accuracy in its daily NAVs and to prevent dilution by frequent traders or market timers who seek to take advantage of temporary market anomalies. The Adviser has developed procedures which utilize fair value pricing when reliable market quotations are not readily available or the Funds’ Pricing Service does not provide a valuation (or provides a valuation that, in the judgment of the Adviser, does not represent the security’s fair value), or when, in the judgment of the Adviser, events have rendered the market value unreliable. Valuing securities at fair value involves reliance on judgment. Fair value determinations are made in good faith in accordance with procedures adopted by the Adviser. There can be no assurance that a Fund will obtain the fair value assigned to a security if it were to sell the security at approximately the time at which a Fund determines its NAV per share. More detailed information regarding fair value pricing and changes to the Funds’ fair value pricing procedures can be found in this Prospectus under the heading entitled “Share Price.”

Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Funds handle, there can be no assurance that the Funds’ efforts will identify all trades or trading practices that may be considered abusive. In particular, since the Funds receive purchase and sale orders through Authorized Intermediaries that use group or omnibus accounts, the Funds cannot always detect frequent trading. However, the Funds will work with Authorized Intermediaries as necessary to discourage shareholders from engaging in abusive trading practices and to impose restrictions on excessive trades. In this regard, the Funds have entered into information sharing agreements with Authorized Intermediaries pursuant to which these intermediaries are required to provide to the Funds, at the Funds’ request, certain information relating to their customers investing in the Funds through non-disclosed or omnibus accounts. The Funds will use this information to attempt to identify abusive trading practices. Authorized Intermediaries are contractually required to follow any instructions from the Funds to restrict or prohibit future purchases from shareholders who are found to have engaged in abusive trading in violation of the Funds’ policies. However, the Funds cannot guarantee the accuracy of the information provided to it from Authorized Intermediaries and cannot ensure that it will always be able to detect abusive trading practices that occur through non-disclosed and omnibus accounts. As a result, the Funds’ ability to monitor and discourage abusive trading practices in non-disclosed or omnibus accounts may be limited.

Other Fund Policies

Telephone Transactions. If you have not declined telephone privileges on the account application or in a letter to a Fund, you may be responsible for any fraudulent telephone orders as long as the Fund has taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified after the close of regular trading on the NYSE (generally 4:00 p.m., Eastern time).

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Funds by telephone, you may also mail the requests to the Funds at the address listed previously in the section entitled “How to Purchase Shares” above. Neither the Funds nor the Transfer Agent are

liable for any loss incurred due to failure to complete a telephone transaction prior to the close of the NYSE (generally 4:00 p.m., Eastern time).

Telephone trades must be received by or prior to market close. During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to the close of the NYSE (generally 4:00 p.m., Eastern time). The Funds are not responsible for delays due to communications or transmission outages, subject to applicable law.

Neither the Funds nor any of their service providers will be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine, subject to applicable law. If an account has more than one owner or authorized person, the Funds will accept telephone instructions from any one owner or authorized person. To confirm that all telephone instructions are genuine, the Funds will use reasonable procedures, such as requesting:

- that you correctly state your Fund account number;
- the name in which your account is registered; or
- the Social Security or taxpayer identification number under which the account is registered.

Policies of Authorized Intermediaries. An Authorized Intermediary may establish policies that differ from those of the Funds. For example, the institution may charge transaction fees, set higher minimum investments or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Please contact your Authorized Intermediary for details.

Closure of a Fund. The Adviser retains the right to close a Fund (or partially close a Fund) to new purchases if it is determined to be in the best interest of shareholders. Based on market and Fund conditions, the Adviser may decide to close a Fund to new investors, all investors or certain classes of investors (such as Fund supermarkets) at any time. If a Fund is closed to new purchases it will continue to honor redemption requests, unless the right to redeem shares has been temporarily suspended as permitted by federal law.

Householding. In an effort to decrease costs, the Funds intend to reduce the number of duplicate prospectuses, supplements and certain other shareholder documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders the Funds reasonably believe are from the same family or household. If you would like to discontinue householding for your accounts, please call toll-free at 855-522-8565 to request individual copies of these documents, or if your shares are held through an Authorized Intermediary, please contact them. Once the Funds receive notice to stop householding, the Funds will begin sending individual copies within 30 days after receiving your request. This policy does not apply to account statements.

Lost Shareholders, Inactive Accounts and Unclaimed Property. It is important that the Funds maintain a correct address for each shareholder. An incorrect address may cause a shareholder's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Funds will attempt to locate the shareholder or rightful owner of the account. If the Funds are unable to locate the shareholder, then it will determine whether the shareholder's account can legally be considered abandoned. Your mutual fund account may be transferred to the state government of your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws. The Funds are legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The shareholder's last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent toll-free at 855-522-8565 at least annually to ensure your account remains in active status.

If you are a resident of the state of Texas, you may designate a representative to receive notifications that, due to inactivity, your mutual fund account assets may be delivered to the Texas Comptroller. Please contact the Transfer Agent if you wish to complete a Texas Designation of Representative form.

IRA Accounts. IRA accounts will be charged a \$15 annual maintenance fee.

DISTRIBUTION OF FUND SHARES

The Distributor

The Trust has entered into a Distribution Agreement (the "Distribution Agreement") with Foreside Fund Services, LLC (the "Distributor") located at 190 Middle Street, Suite 301, Portland, Maine 04101, pursuant to which the Distributor acts as the Funds' principal underwriter, provides certain administration services and promotes and arranges for the sale of the Funds' shares. The offering of the Funds' shares is continuous, and the Distributor distributes the Funds' shares on a best efforts basis. The Distributor is not obligated to sell any certain number of shares of a Fund. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc.

Distribution and Service (12b-1) Fees

Each Fund has adopted a distribution plan under Rule 12b-1 of the 1940 Act that allows the Fund to pay distribution fees of 0.25% per year, to those who sell and distribute the fund shares and provide other services to shareholders. However, the Board has determined not to authorize payment of a Rule 12b-1 plan fee at this time. Because these fees are paid out of a Fund's assets on an ongoing basis, to the extent that a fee is authorized, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

PAYMENTS TO FINANCIAL INTERMEDIARIES

The Funds may pay fees to intermediaries such as banks, broker-dealers, financial advisers or other financial institutions, including affiliates of the Adviser, for recordkeeping, sub-administration, sub-accounting, sub-transfer agency and other shareholder services (collectively, "sub-TA services") associated with shareholders whose shares are held of record in omnibus and networked accounts, retirement plans, other group accounts or accounts traded through registered securities clearing agents in lieu of the transfer agent providing such services.

Each Fund's shares have an Administrative Servicing Fee paid to service providers, including dealers, in connection with investments in a Fund through platforms and other investment programs for certain administrative services provided to or for the Fund's beneficial shareholders, such as shareholder recordkeeping and reporting among others.

The Adviser, out of its own resources and legitimate profits, and without additional cost to a Fund or its shareholders, may provide additional cash payments to certain intermediaries. Such payments, sometimes referred to as revenue sharing, are in addition to Rule 12b-1 fees and sub-TA fees paid by a Fund, if any. Revenue sharing payments may be made to intermediaries for sub-TA services or distribution-related services, such as marketing support; access to third party platforms; access to sales meetings, sales representatives and management representatives of the intermediary; and inclusion of a Fund on a sales list, including a preferred or select sales list, and in other sales programs. The Adviser may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold. From time to time, and in accordance with applicable rules and regulations, the Adviser may also provide non-cash compensation to representatives of various intermediaries who sell Fund shares or provide services to Fund shareholders.

DISTRIBUTIONS AND TAXES

Distributions

Each Fund will make distributions of net investment income and net capital gain, if any, at least annually, typically during the month of December. The Funds may make additional distributions if it deems it desirable at another time during any year.

All distributions will be reinvested in additional Fund shares unless you choose one of the following options: (1) receive distributions of net capital gain in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional Fund shares, while receiving distributions of net investment income in cash.

If you wish to change your distribution option, write to or call the Transfer Agent at 855-522-8565 in advance of the payment date of the distribution. However, any such change will be effective only as to distributions for which the record date is five or more calendar days after the Transfer Agent has received the request.

If you elect to receive distributions in cash and the U.S. Postal Service is unable to deliver your check, or if the check remains uncashed for six months, the Funds reserve the right to reinvest the distribution check in your account at the applicable Fund's then current NAV per share and to reinvest all subsequent distributions.

Federal Income Tax Consequences

Changes in income tax laws, potentially with retroactive effect, could impact a Fund's investments or the tax consequences to you of investing in a Fund. Some of the changes could affect the timing, amount and tax treatment of a Fund's distributions made to shareholders. Please consult your tax adviser before investing.

Distributions of a Fund's investment company taxable income (which includes, but is not limited to, interest, dividends, net short-term capital gain and net gain from foreign currency transactions), if any, are generally taxable to a Fund's shareholders as ordinary income. For a non-corporate shareholder, to the extent that a Fund's distributions of investment company taxable income are attributable to and reported as "qualified dividend" income, such income may be subject to tax at the reduced federal income tax rates applicable to net long-term capital gain, if certain holding period requirements have been satisfied by the shareholder. For a corporate shareholder, a portion of a Fund's distributions of investment company taxable income may qualify for the dividends-received deduction to the extent the Fund receives dividends directly or indirectly from U.S. corporations, reports the amount distributed as eligible for the deduction and the corporate shareholder meets certain holding period requirements with respect to

its shares. A Fund's investment strategy may significantly limit the Fund's ability to make distributions that qualify as qualified dividend income or are eligible for a dividends-received deduction. To the extent that a Fund's distributions of investment company taxable income are attributable to net short-term capital gain, such distributions will be treated as ordinary income and cannot generally be offset by a shareholder's capital losses from other investments.

Distributions of a Fund's net capital gain (net long-term capital gain less net short-term capital loss) are generally taxable to Fund shareholders as long-term capital gain regardless of the length of time that a shareholder has owned Fund shares. Distributions of net capital gain are not eligible for qualified dividend income treatment or the dividends-received deduction referred to above.

You will be taxed in the same manner whether you receive your distributions (of investment company taxable income or net capital gain) in cash or reinvest them in additional Fund shares. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record and paid the following January are taxable as if received on December 31.

In addition to the federal income tax, certain individuals, trusts and estates may be subject to a net investment income ("NII") tax of 3.8%. The NII tax is imposed on the lesser of: (i) a taxpayer's investment income, net of deductions properly allocable to such income; or (ii) the amount by which such taxpayer's modified adjusted gross income exceeds certain thresholds (\$250,000 for married individuals filing jointly, \$200,000 for unmarried individuals and \$125,000 for married individuals filing separately). A Fund's distributions are includable in a shareholder's investment income for purposes of this NII tax. In addition, any capital gain realized by a shareholder upon a sale or redemption of Fund shares is includable in such shareholder's investment income for purposes of this NII tax.

Shareholders who sell or redeem shares that are held as a capital asset generally will have a capital gain or loss from the sale or redemption. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount received from the sale or redemption (including in-kind redemptions) and how long the shares were held by a shareholder. Gain or loss realized upon a sale or redemption of Fund shares will generally be treated as a long-term capital gain or loss if the shares have been held for more than one year and, if held for one year or less, as a short-term capital gain or loss. Any loss arising from the sale or redemption of shares held for six months or less, however, is treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales or similar transactions is not counted. If you purchase a Fund's shares (through reinvestment of distributions or otherwise) within 30 days before or after selling or redeeming the Fund's shares at a loss, all or part of that loss will not be deductible and will instead increase the basis of the new shares.

The Funds are required to report to certain shareholders and the Internal Revenue Service ("IRS") the cost basis of Fund shares when those shareholders subsequently sell or redeem those shares. The Funds will determine the cost basis of such shares using the average cost method unless you elect in writing any alternate IRS-approved cost basis method. Please see the SAI for more information regarding cost basis reporting.

The federal income tax status of all distributions made by a Fund for the preceding year will be annually reported to shareholders. Distributions made by a Fund may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax adviser.

Derivative Actions

Pursuant to the Trust's Amended and Restated Declaration of Trust (the "Declaration of Trust"), and subject to the limitations disclosed in the Declaration of Trust, a Fund shareholder may only bring a derivative action if (i) the shareholder or shareholders make a pre-suit demand upon the Board of Trustees to bring the subject action unless an effort to cause the Board of Trustees to bring such an action is not likely to succeed (as defined in the Declaration of Trust); (ii) shareholders eligible to bring such derivative action under the Delaware Statutory Trust Act who hold at least 10% of the outstanding voting securities of the Trust, or 10% of the outstanding voting securities of the series or class to which such action relates, shall join in the request for the Board of Trustees to commence such action; and (iii) the Board of Trustees is afforded a reasonable amount of time to consider such shareholder request and to investigate the basis of such claim. The Board of Trustees shall be entitled to retain counsel or other advisors in considering the merits of the request and shall require an undertaking by the shareholders making such request to reimburse the Trust for the expense of any such advisors in the event that the Trustees determine not to bring such

action. The provision requiring at least 10% of the outstanding voting securities of the Trust, applicable series or class to join in the request to bring the derivative action and the provision requiring an undertaking by the requesting shareholders to reimburse the Trust for the expense of any advisors retained by the Board of Trustees in the event that the Trustees determine not to bring such action, do not apply to claims brought under federal securities laws.

FINANCIAL HIGHLIGHTS

Financial information is not available because the Funds had not commenced operations prior to the date of this Prospectus.

PRIVACY NOTICE

The Funds collect non-public personal information about you from the following sources:

- information the Funds receive about you on applications or other forms;
- information you give the Funds orally; and/or
- information about your transactions with the Funds or others.

The types of non-public personal information we collect and share can include:

- social security numbers;
- account balances;
- account transactions;
- transaction history;
- wire transfer instructions; and
- checking account information.

What Information We Disclose

The Funds do not disclose any non-public personal information about its shareholders or former shareholders without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. The Funds may share information with affiliated parties and unaffiliated third parties with whom it has contracts for servicing the Funds. The Funds will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibility.

How We Protect Your Information

All shareholder records will be disposed of in accordance with applicable law. The Funds maintain physical, electronic and procedural safeguards to protect your non-public personal information and requires third parties to treat your non-public personal information with the same high degree of confidentiality.

In the event that you hold shares of a Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary governs how your non-public personal information is shared with unaffiliated third parties.
